

The attachment network

What is it?

- A termly meeting for Stockport staff working with children with attachment and trauma needs
- A warm, friendly and non judgemental place to share experiences with colleagues and discover new ways to support staff and students
- A mix of new attendees and regulars, primary and secondary, special and inclusion services.
- We like to focus on staff wellbeing and celebrate the incredible work you do with your students day in, day out.

What happens?

- A training input on a topic relevant to attachment and trauma-informed work
- A round up of new and interesting resources to share with your colleagues back at school
- Problem solving circles to share good practice and chat to staff from other settings

Where can I get more info?

The BSS Attachment Network has been supporting Stockport staff for nearly 10 years. We may facilitate it, but the lived and worked experience of our attendees is our superpower!

Contact heather.newton@stockport.gov.uk for more information.

Where?

Romiley
