

1.4 Photography

We have several members who have an interest in photography, however they are also members of Stockport Photography Society, so we don't compete with them. We do use their knowledge and skills to help us document our activities. We have also helped each other to manipulate the images on the computer in the editing packages.

1.5 Community Green Spaces

We have identified a couple of areas in the Heatons that need some attention, apart from building benches and planters we will be getting our hands dirty clearing overgrown bushes, weeding and tidying them up. Details of these days will be in the events section as soon as they are known.

1.6 Advanced Computer Skills

We have a couple of members who are interested in website design (what do you think of this first attempt?), and coding. We also want to get involved in projects using raspberry pi etc. We discuss these things, and help each other at quieter periods of the free 1 to 1 sessions on Thursdays.
