LEVEL UP

> **8th - 26th November**   > **Prince's Trust Manchester centre**

Are you aged 16 -25 and interested in the digital or tech sector?

Co-developed with Capgemini, our Level Up course aims to offer you an insight into the different industries that use technology and digital skills, helping you to build new skills and unlock hidden potential.

As well as digital sessions and networking opportunities with Capgemini, we've partnered with a variety of specialist partners including Gaydio, The Reporters' Academy, NextGen Skills Academy and HOST to bring you this free three-week course. They will provide insight into topics such as:

* Radio
* Coding
* Game design
* Video production

You'll gain an understanding of how the different industries use technology, some of the key roles within the sector and an insight into the different paths into these industries.

This course will run Monday to Friday for three weeks at our Manchester centre.

Induction: 4th November

Young people will take part in sessions with the following organisations:

Capgemini is a global leader in consulting, digital transformation, technology, and engineering services. The Group is at the forefront of innovation to address the entire breadth of clients' opportunities in the evolving world of cloud, digital and platforms.

Gaydio is the world's largest radio station for LGBT+ people, but alongside delivering everything you'd expect from a modern media company, they're committed to using their resources to help effect positive change in the places we broadcast to and the community that Gaydio represent. The Gaydio Academy forms one part of this mission.

The Reporters' Academy is a not-for-profit organisation which makes a positive difference to the lives of young people through a dedicated, structured, and enjoyable media programme. They provide specialist training, to produce industry standard content and offer unique and inspiring 'real life' opportunities such as filming and reporting the Olympics.

Everyone Can Code Early Learners is Apple's own coding platform. The idea is to teach student how to code and app design using the company's own Swift programming language.

HOST is Salford's Home of Skills & Technolgy, an innovation hub at the heart of MediaCity. HOST combines skills, innovation and start up all under one roof, with people, place and culture driving everything they do. They are a committed to creating a diverse and inclusive tech community with a unique environment that helps people to learn, grow and succeed.

IN4.0 Group, a UK leader in digital transformation and talent development, helps businesses adopt digital technologies, and recruit highly skilled, diverse workforces capable of the innovation they need to thrive. Their mission is to break the barriers to entry into the tech sector, creating one of the most inclusive technology communities in the world.

This Centre of Excellence promises to upskill learners to prepare for the jobs of tomorrow, promote interactive and immersive technology usage across sectors, create highly skilled jobs and establish a central home for the thriving UK video games industry at MediaCityUK. It connects innovators with the creativity, imagination, and expertise of Unity, providing unique and invaluable access to Unity's technical leads, creatives, and support networks.

NextGen Skills Academy brings industry and education together. Their courses in games, animation and VFX skills have been developed in partnership with some of the biggest companies in these industries. NextGen courses are available at industry selected colleges across England and along with the industry written curriculum, students receive industry masterclasses, live streams and more.

Cyber Crime Prevention officers at Greater Manchester Police deliver sessions to create awareness and to educate young people, parents, partner agencies and educational establishments about the dangers of cyber-crime, the Computer Misuse Act 1990 and to positively divert young people towards exciting career opportunities. They also offer advice relating to how to stay safe online.
