### Signpost Stockport Young Carers

An exciting opportunity has arisen within our service to employ a dedicated worker to support schools to set up their own support/respite groups for young carers. This is following the success of some of our Stockport schools already delivering this type of support.

The worker will raise awareness of Young Carer's issues in educational settings both with staff and pupils, this will involve training staff to equip them to identify and support Young Carers and offer practical support in developing their groups. You will work alongside an already successful schools support service and will have the opportunity to create real and long term changes for our Stockport Young Carers.

Please email [katy@signpostforcarers.org.uk](mailto:katy@signpostforcarers.org.uk) for full job details and application form.
