COVID-19 TESTING

WITH SYMPTOMS

PCR test

When to take a test

- If you have COVID-19 symptoms
- To confirm a positive lateral flow test result

How long does it take?

- PCRs are processed in a lab
- Results usually received within 48 hours

How to get a test?

gov.uk/get-coronavirus-test

WITHOUT SYMPTOMS

Lateral Flow Device (LFD) test

When to take a test

- If you do not have COVID-19 symptoms
- As part of routine testing

How long does it take?

- Produce results within 30 minutes
- With regular use, LFDs help to detect infection early

How to get a test?

health-ni.gov.uk/rapid-tests
