

Booster

Who?

People aged 50+, carers, health and social workers, people aged 16+ with a health condition.

What?

Most people will be offered a booster dose of the Pfizer or Moderna vaccine.

When?

You'll be offered a booster dose at least 6 months after you had your 2nd dose.

Where?

You can book your COVID-19 booster vaccine dose online or visit your local walk-in centre.

Third Dose

Who?

People with severely weakened immune systems.

What?

Either the Moderna or Pfizer vaccines will be administered for the third dose.

When?

Your third dose should be given at least eight weeks after your second dose.

Where?

Your GP will contact you to arrange your third Covid-19 vaccination.
